

CT050-3-2 Web Applications

Module Introduction and Overview

Lecturer information

Lecturer Name : Mohamad Firdaus

Email : firdaus@apu.edu.my

Pre-requisites for this module

- None

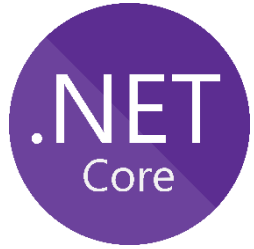

Aims of this module

- The aim of this module is to introduce web development concepts. This is followed by introduction of tools used to develop web applications for both client and server environments. Tools involving scripting and database handling are covered. Concepts related to good design, usability, and maintainability of web pages are taught in the syllabus.

Course Learning Outcomes

- At the end of this module, YOU should be able to:
- Explain the important concepts and their application in designing and developing web application (C5, PLO2).
- Construct a web application which is connected to a well-designed database by using server and client-side scripting language based on the current web standards. (P4,PLO3)

Development Platform for This Module

ASP.NET Core
as the web
application
framework

Razor Pages
as the project template for
page-based development

C#
for application logic

HTML, CSS, and JavaScript
for the user interface

Visual Studio Code

Visual Studio Code
as the development
environment

MySQL for database storage
MySQL Workbench to view and manage databases

Assessment Method

- Group assignment (4 – 5 members per group)
 - Documentation (50%)
 - Web App Implementation (50%)
- Requirements
 - Every group member must contribute to **both** the **web app implementation** and the **documentation**.
 - Each member is expected to participate in **coding** and in preparing the written **documentation**.
 - Although the work is completed in groups, **assessment will be awarded individually**.

Important Dates

Activity/ Deliverable	Date
Assignment question handout ¹	Week of 27 April 2026
Group member registration	By 11 May 2026
Group Assignment Proposal submission	By 1 June 2026
Group Assignment submission (Documentation & Web App)	By 26 July 2026
Group Assignment Presentation ²	Week of 27 July onwards

¹ Assignment briefing will be conducted on assignment question hand out day.

² Presentation will be conducted using Microsoft Teams.

Q & A
